Create a Life Story Album

The keyboard and a USB stick with the images, audio clips and/or videos for the album are required. NB: the images must be grouped in folders on the USB stick.
TIP – view the sample album to get inspired ☺

Start the BrainTrainerPlus

Attach the keyboard

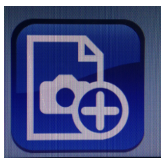

Insert the USB stick

Go to the person for whom the Life Story is for

Choose Life Story

Choose 'Edit or create albums' to add images one by one or choose 'Automatically create one album from a collection of images' to import all images in the folder.

If adding an image one at a time:

Choose the Add button 

Touch the white box "Choose a Life Story name" to enter the name of the album.

Choose if the album is to be public or private by touching the appropriate circle

If private, you have the option of entering a password.

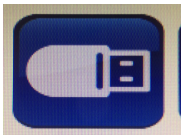

If you chose the 'Automatically create one album' follow the instructions.

Choose OK and you are returned to the Main Album screen.

Choose the new ? Album

Choose Edit / OK

Import Images / Videos to the BTP

Choose the Import button 

Choose the folder of where the images are, choose the images / videos you would like to import (images to be imported will turn grey)

Once all the images are chosen, touch OK

A message will appear confirming the import.

Design your Life Story Album

After the images are imported, it's time to design your album by using the side bar icons

- The pencil icon allows you to add text to the life story
- The + icon allows you to add images to the life story
- The Trash icon lets you remove images from the life story

Add an image to the album using the + icon

Choose the first image you would like to add, touch OK

By touching the image with one finger you can relocate it by dragging it to the desired spot on the screen

The image can be re-sized, repositioned or rotated by touching the image with two fingers.

Add text by using the pencil icon

Touch the text box and use the keyboard to add the text
TIP: don't make the line length too long.

You can change the font to bold, change the colour, change the font size or type by using the ions at the top. To change the font size, enter the size using the keyboard

Once you are satisfied, choose OK

The text appears in the bottom left corner.

To edit the text, double tap on the text box

By touching the text with one finger you can relocate it by dragging it to the desired spot on the screen
By touching the text with two fingers you can resize or rotate it

To add the next page, choose the + icon at the top of the screen and repeat the steps above

Continuing adding pages and text until your album is complete.

To delete pages, choose the — icon a the top of the screen

If you are satisfied with the album you have created, choose Save  to save the Album

You can easily go back and edit any pages by using the << and >> buttons

To add videos or audio clips, use the appropriate icons to insert and repeat the steps.

To exit a Life Story, press the X in the top right corner until you return to "Choose a User" menu

Viewing a Life Story Album

Go to the person whose album is to be viewed

Choose Life Story

Choose View albums

Choose the album to view

The Life Story you created earlier will be opened.

Use the > to play the album

Use the << or >> to play slide by slide

Use the setting button to change the slide settings

To exit a Life Story, press the X in the top right corner until you return to “Choose a User” menu

Export Life Story Album to PDF

Go to the person whose album you would like to export

Choose Life Story

Choose View Albums

Choose the Album to export

Choose the PDF icon

Insert the USB stick and choose Yes

Enter a name for the pdf or use the name from the album as it appears

Choose OK

A message will appear that your PDF was saved

Remove the USB stick

Exit the Life Story, press the X in the top right corner until you return to “Choose a User” menu
