CONNECT TO WIFI FOR UPDATING

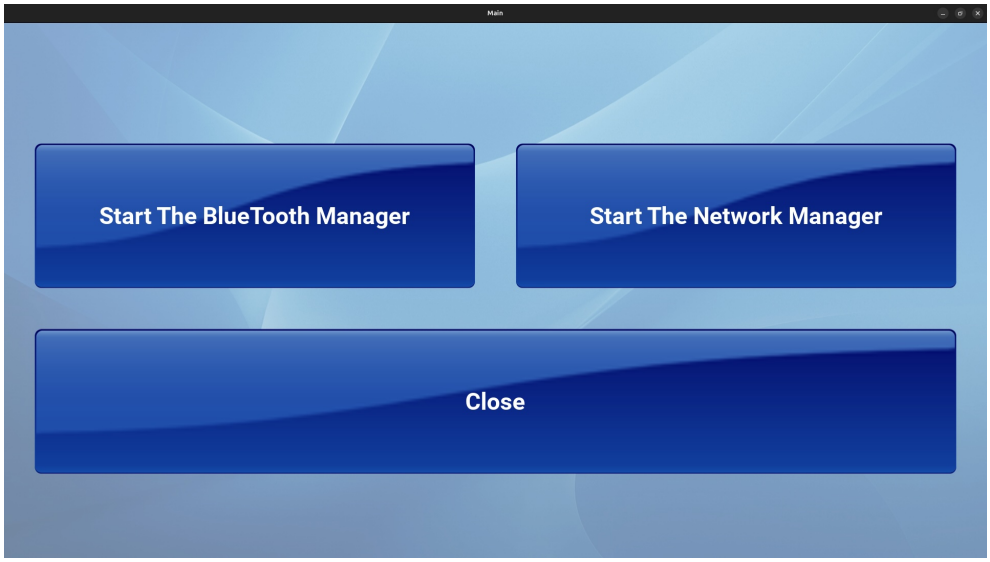

To Open the HELPER PROGRAMS

At the main screen **"CHOOSE A GROUP",** tap five times in the **bottom right corner** of the BTP

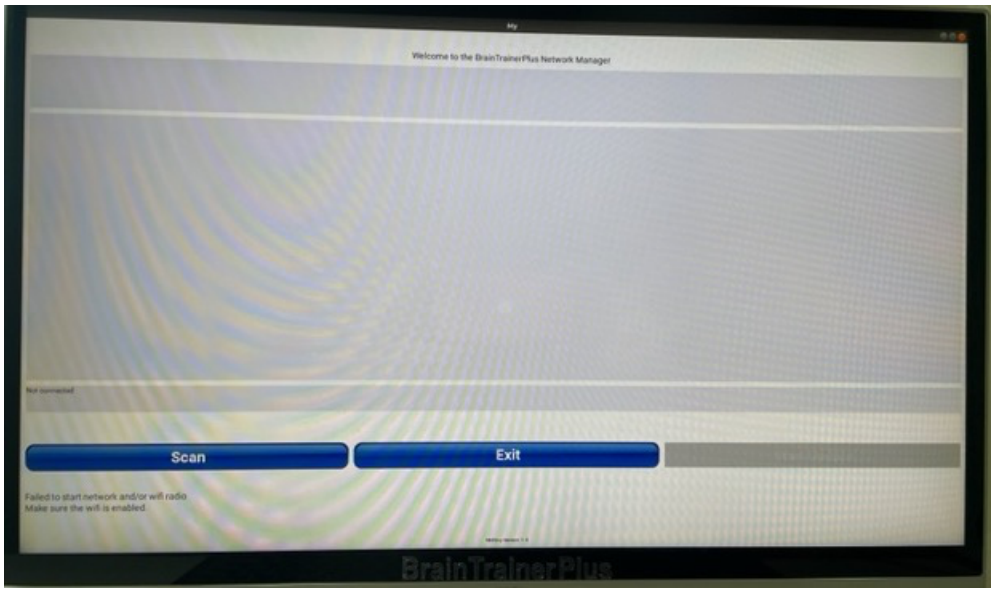

- Choose **Start helper programs**

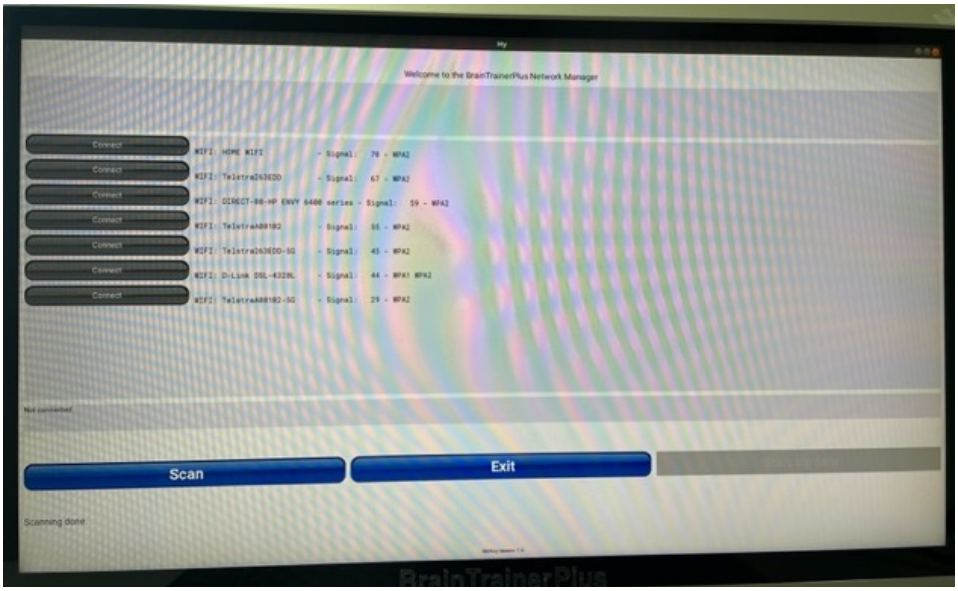

- Choose **Start the Network Manager Bluetooth Manager**

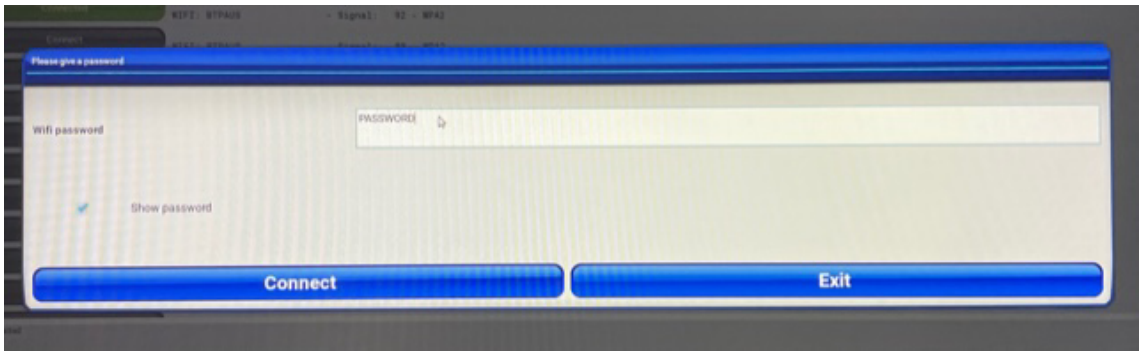

- If your network is not shown, choose ‘Scan’

- Select ‘Connect’ next to the Wi-Fi network you can connect to without having to enter a ‘User’ name

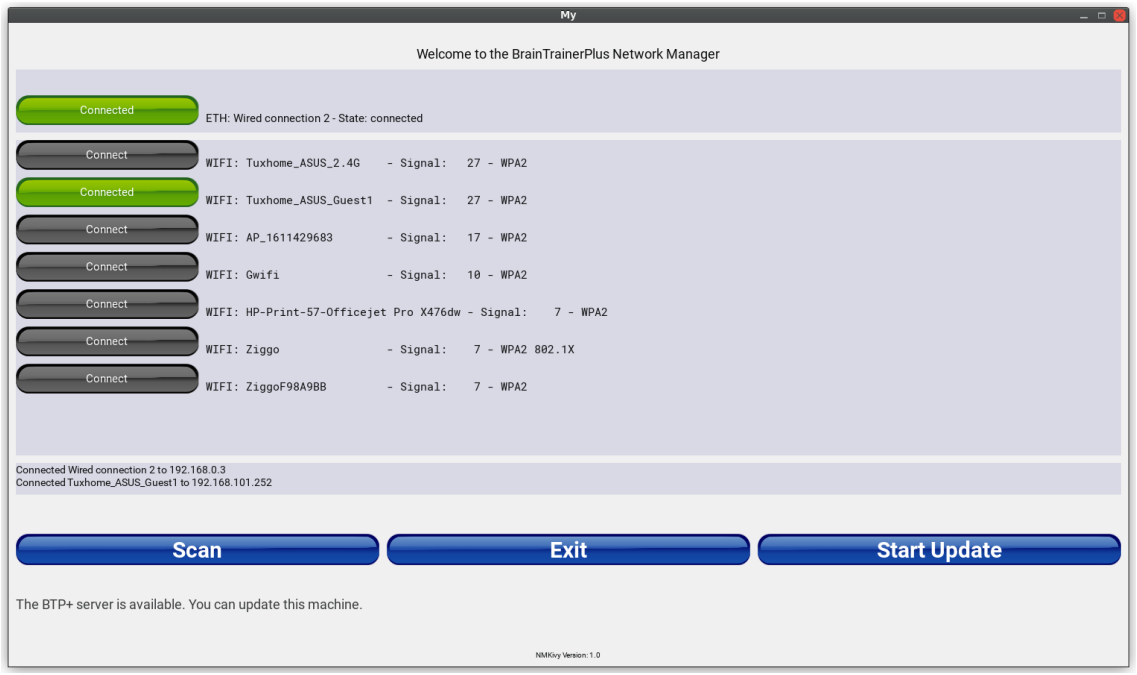

- Enter the password of the Wi-Fi network

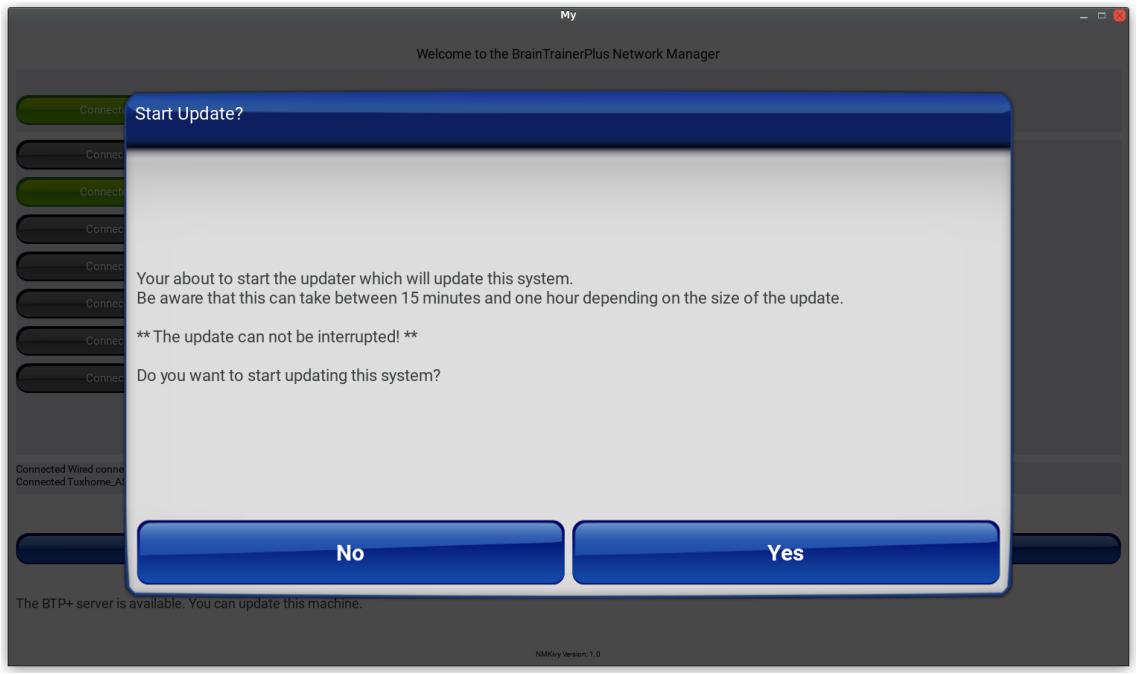

- Connect

- Confirm the connection is established (bottom left hand)
- ‘Start Update’ - if it does not light up, ‘scan’ again.

- Confirm you want to start the update process ‘Yes’

You can leave the BTP to run the update process, it will reboot when it is finished.
